Throughout history, the Balkans have been a crossroads, a zone of endless military, cultural and economic mixing and clashing between Europe and Asia, Christianity and Islam, Catholicism and Orthodoxy. Subject to violent shifts of borders, rulers and belief systems at the hands of the world's great empires--from the Byzantine to the Habsburg and Ottoman--the Balkans are often called Europe's tinderbox and a seething cauldron of ethnic and religious resentments. Much has been made of the Balkans' deeply rooted enmities. The recent destruction of the former Yugoslavia was widely ascribed to millennial hatreds frozen by the Cold War and unleashed with the fall of communism. In this brilliant account, acclaimed historian Mark Mazower argues that such a view is a dangerously unbalanced fantasy. A landmark reassessment, The Balkans rescues the region's history from the various ideological camps that have held it hostage for their own ends, not least the need to justify nonintervention. The heart of the book deals with events from the emergence of the nation-state onward. With searing eloquence, Mazower demonstrates that of all the gifts bequeathed to the region by modernity, the most dubious has been the ideological weapon of romantic nationalism that has been used again and again by the power hungry as an acid to dissolve the bonds of centuries of peaceful coexistence. The Balkans is a magnificent depiction of a vitally important region, its history and its prospects.

Focusing on events from the emergence of the nation-state onward, The Balkans reveals with piercing clarity the historical roots of current conflicts and gives a landmark reassessment of the region's history, from the world wars and the Cold War to the collapse of communism, the disintegration of Yugoslavia, and the continuing search for stability in southeastern Europe.

Examines the causes of ethnic conflict in the Balkans, discussing how the meeting of European and Asian cultural influences and the blending of Christian and Muslim populations have created a complex and divisive situation. Winner of the Wolfson History Prize. Reprint. 25,000 first printing.

In the historical and literary imagination, the Balkans loom large as a somewhat frightening and ill-defined space, often seen negatively as a region of small and spiteful peoples, racked by racial and ethnic hatred, always ready to burst into violent conflict. The Balkans in World History re-defines this space in positive terms, taking as a starting point the cultural, historical, and social threads that allow us to see this region as a coherent if complex whole. Eminent historian Andrew Wachtel here depicts the Balkans as that borderland geographical space in which four of the world's greatest civilizations have overlapped in a sustained and meaningful way to produce a complex, dynamic, sometimes combustible, multi-layered local civilization. It is the space in which the cultures of ancient Greece and Rome, of Byzantium, of Ottoman Turkey, and of Roman Catholic Europe met, clashed and sometimes combined. The history of the Balkans is thus a history of creative borrowing by local people of the various civilizations that have nominally conquered the region. Encompassing Bulgaria, Croatia, Bosnia and Herzegovina, Serbia, Montenegro, Albania, Macedonia, Greece, and European Turkey, the Balkans have absorbed many voices and traditions, resulting in one of the most complex and interesting regions on earth.

From the assassination that triggered World War I to the ethnic warfare in Serbia, Bosnia, and Croatia, the Balkans have been the crucible of the twentieth century, the place where terrorism and genocide first became tools of policy. Chosen as one of the Best Books of the Year by The New York Times, and greeted with critical acclaim as "the most insightful and timely work on the Balkans to date" (The Boston Globe), Kaplan's prescient, enthralling, and often chilling political travelogue is already a modern classic. This new edition of Balkan Ghosts includes six opinion pieces written by Robert Kaplan about the Balkans between 1996 and 2000 beginning just after the implementation of the Dayton Peace Accords and ending after the conclusion of the Kosovo war, with the removal of Slobodan Milosevic from power.

Discusses the different ethnic and religious groups that inhabit Bosnia, and looks at the political and cultural upheaval that have been a continuing part of the region's history

This unique and lively history of Balkan geopolitics since the early nineteenth century gives readers the essential historical background to recent events in this war-torn area. No other book covers the entire region, or offers such profound insights into the roots of Balkan violence, or explains so vividly the origins of modern Serbia, Croatia, Bosnia, Greece, Bulgaria, Romania, and Albania. Misha Glenny presents a lucid and fair-minded account of each national group in the Balkans and its struggle for statehood. The narrative is studded with sharply observed portraits of kings, guerrillas, bandits, generals, and politicians. Glenny also explores the often-catastrophic relationship between the Balkans and the Great Powers, raising some disturbing questions about Western intervention.
