The instructional materials listed in this document were reviewed by a California Legal Compliance Committee using the social content requirements of the Educational Code concerning the depiction of males and females, ethnic groups, older persons, disabled persons, and others to ensure that the materials were responsive to social concerns. Included for all materials are publisher, title, International Standard Book Number, copyright date, grade level, and Legal Compliance Committee termination date. The materials are divided into the following subject areas: (1) reading; (2) literature; (3) spelling and handwriting; (4) dictionaries; (5) English; (6) science; (7) health; (8) art and music; (9) mathematics; (10) social sciences; (11) foreign languages; (12) English as a foreign language; (13) kindergarten; (14) computer software; (15) miscellaneous; and (16) bilingual/bicultural materials. (PCB)

Corrosion of steel reinforcement in concrete is a major problem, with serious implications for structural integrity and durability particularly for bridges and marine structures. This new book provides a thorough overview of recent developments and applications in this area. It examines the durability, strength and suitability of alternative materials.

Nonconventional Concrete Technologies: Renewal of the Highway Infrastructure identifies research and development opportunities in innovative, nonconventional materials and processes that have the potential to accelerate the construction process, improve the durability of highway pavement and bridges, and enhance the serviceability and longevity of new construction under adverse conditions.
