Collins Big Cat supports every primary child on their reading journey from phonics to fluency. Top authors and illustrators have created fiction and non-fiction books that children love to read. Book banded for guided and independent reading, there are reading notes in the back, comprehensive teaching and assessment support and ebooks available. "I'm Wygenia. On my island, we speak a language that's all our own, so you might not be familiar with it. I'm going to tell you about the time my grannie got sick and how my mooma and I helped her get better. I'll tell you exactly how it happened, using the exact words Mooma and Grannie used." When her beloved Grannie falls ill, ten-year-old Wygenia feels lonely and helpless. Then she learns about a healing plant so powerful it's called 'Wonder of the World.' But will it really work? Set in the Caribbean island of Trinidad, this realistic fiction tale tells the story of Wygenia's quest to restore her Grannie to the high-spirited companion she used to know. Teachers, parents and caregivers looking for familial, multicultural stories for children ages 7 and upwill appreciate this story that evokes Caribbean traditions and customs in a non-stereotypical way. White/Band 10 books have more complex sentences and figurative language. Ideas for reading in the back of the book provide practical support and stimulating activities.

Protests from Tahrir Square to Zuccotti Park have brought the crisis of public space to the forefront of our attention: Where can the public congregate? How can city planning, design, and policies support First Amendment rights to public assembly and free speech? Forty experts in social science, planning, design, civil liberties, urban affairs, and the arts use the Occupy movement as a springboard for original, multidisciplinary essays that address these exigent questions. This foundational book puts issues of democracy and civic engagement back into the center of dialogue about the built environment.

Recent global appropriations of public spaces through urban activism, public uprising, and political protest have brought back democratic values, beliefs, and practices that have been historically associated with cities. Given the aggressive commodification of public re- sources, public space is critically important due to its capacity to enable forms of public dis- course and social practice which are fundamental for the well-being of democratic societies. Public Space Reader brings together public space scholarship by a cross-disciplinary group of academics and specialists whose essays consider fundamental questions: What is public space and how does it manifest larger cultural, social, and political processes? How are public spaces designed, socially and materially produced, and managed? How does this impact the nature and character of public experience? What roles does it play in the struggles for the just city, and the Right to The City? What critical participatory approaches can be employed to create inclusive public spaces that respond to the diverse needs, desires, and aspirations of individuals and communities alike? What are the critical global and comparative perspectives on public space that can enable further scholarly and professional work? And, what are the futures of public space in the face of global pandemics, such as COVID-19? The readers of this volume will be rewarded with an impressive array of perspectives that are bound to expand critical understanding of public space.

An engaging examination of how video game design can create strong, positive emotional experiences for players, with examples from popular, indie, and art games. This is a renaissance moment for video games–in the variety of genres they represent, and the range of emotional territory they cover. But how do games create emotion? In How Games Move Us, Katherine Isbister takes the reader on a timely and novel exploration of the design techniques that evoke strong emotions for players. She counters arguments that games are creating a generation of isolated, emotionally numb, antisocial loners. Games, Isbister shows us, can actually play a powerful role in creating empathy and other strong, positive emotional experiences; they reveal these qualities over time, through the act of playing. She offers a nuanced, systematic examination of exactly how games can influence emotion and social connection, with examples–drawn from popular, indie, and art games–that unpack the gamer's experience. Isbister describes choice and flow, two qualities that distinguish games from other media, and explains how game developers build upon these qualities using avatars, non-player characters, and character customization, in both solo and social play. She shows how designers use physical movement to enhance players' emotional experience, and examines long-distance networked play. She illustrates the use of these design methods with examples that range from Sony's Little Big Planet to the much-praised indie game Journey to art games like Brenda Romero's Train. Isbister's analysis shows us a new way to think about games, helping us appreciate them as an innovative and powerful medium for doing what film, literature, and other creative media do: helping us to understand ourselves and what it means to be human.

Similar to The Big Book of Alcoholics Anonymous, Life with Hope thoroughly explains the 12 Steps and 12 Traditions as they relate to marijuana addicts and those with cannabis use disorder. This is an essential resource for anyone seeking recovery through Marijuana Anonymous (MA). "How can we tell you how to recover? We cannot. All we can do is share with you our own experiences and recovery through the Twelve Steps of Marijuana Anonymous." Similar to The Big Book of Alcoholics Anonymous, Life with Hope thoroughly explains the Twelve Steps and Twelve Traditions as they relate to individuals with cannabis use disorder. The text includes the 12 Steps and the 12 Traditions, fifteen personal stories from Marijuana Anonymous members, and the section, A Doctor's Opinion about Marijuana Addiction. Life with Hope is an essential resource for the marijuana addict and for anyone with a cannabis use disorder who is seeking recovery through Marijuana Anonymous (MA). The text is ideal for newcomers, people who are in active addiction, and anyone interested learning more about how marijuana addiction affects people's lives.

How to develop powerful mobile Web sites using popular content management systems (CMS) Mobile is the hottest thing going–and developing content for mobile devices and browsers is even hotter than that. This book is your guide to it all–how to design, build, and deploy sites, blogs and services that will work brilliantly for mobile users. Then, using the most popular content management systems, WordPress, Joomla!, and Drupal, you'll learn how to building world-class mobile web sites from existing platforms and content.. The book walks you through each platform, including how to use third-party plug-ins and themes, explains the strategies for writing your own logic, how to switch between mobile and desktop, and much more. Provides a technical review of the mobile landscape and acquaints you with a range of mobile devices and networks Covers topics common to all platforms, including site topologies, switching between mobile and desktop, common user interface patterns, and more Walks you through each content management platform–WordPress, Joomla!, and Drupal–first focusing on standard plug-ins and themes and then exploring advanced techniques for writing your own themes or logic Explains the best practices for testing, deploying, and integrating a mobile web site Also explores analytics, m-commerce, and SEO techniques for mobile Get ahead of the the mobile web development curve with this professional and in-depth reference guide!

The African American Male School Adaptability Crisis (AMSAC) cannot be solved by the school alone. It is a race problem which can only be solved if we black males provide the leadership in tackling our three major demons which now mainly account for the problem: IQ lag-fatherless families-crime. AMSAC had its origin about 100 years ago when, after the death of Washington, DuBois gained ascendancy in our African American Garden of Eden and replaced Washingtons brains, property, and character gospel with a civil rights agenda. That agenda has led to a civil-rights fixation and our second bondage, Victimology, wherein being the victim has become part of our core identity and made us psychological slaves. Rather than being proud and self-reliant, disproportionately, we have come to see ourselves as victims who are entitled to system help and special treatment. This bondage and it is a bondage -- vitiates our manhood and the energy and drive required to pursue the adaptation pathway paved by Washington, but demonized by DuBois. Return to that pathway and we can confront and conquer AMSAC and our three major demons. Guided by history and the research evidence, this book details how. Its 20 chapters make for long reading, but, just by reading the first and last chapters, you can get the message. The motto of the proposed evidence-based experimental program, the African American Male Career Pathway Program (AMCAP). A special appeal is made to black athletes and entertainers to help propagate this motto and support the proposed high school student clubs (Student AMCAPs) in its implementation.
