App store optimization is the process of improving the visibility of a mobile app in an app store. Just like search engine optimization is for websites, app store optimization is for mobile apps. Specifically, app store optimization includes the process of ranking highly in an app store's search results and top charts rankings. Additionally, app store optimization also encompasses activities focused on increasing the conversion of app store impressions into downloads, collectively referred to as

ASO KPIs - How to Analyze App Store Optimization -

Not sure how to affect your Android app ' s Google Play SEO keyword rankings? The first lesson is that Google Play ASO is referred to as Google Play ASO (however, there actually is also a field between Google Play ASO and Google Play SEO - check out this post on Google App Packs to learn more about that).. The second lesson is thankfully a pretty easy one.
