Like Brain Training, Advanced Brain Trainer relies on you coming back to it for daily training, as by practising the game's challenges regularly, your brain begins to function at a quicker and more accurate rate - at least that's how the theory goes. What is more likely however, is that you simply become more familiar with what's required.

What is even better is that there are brain-training programs that don't require you to take drugs or ingest chemicals into your body. It's common for people to make the mistake of thinking that just because these exercises are called brain exercises, that they will give you the power to control your mind and that your mind will simply obey.
