Ace your Chinese (CAAC) ATPL Airline Pilot Exams! If you're an English-speaking pilot (whether Chinese or not) looking to boost your aviation career by obtaining a Chinese ATPL certificate (either new or when converting from an FAA, EASA, or other license), this app will help you pass the tricky Chinese ATPL tests. Often, pilots flying in China find that they can leapfrog into jets far quicker ...

Whether a trainee is studying air traffic control, piloting, maintenance engineering, or cabin crew, they must complete a set number of training 'hours' before being licensed or certified. The aviation industry is moving away from an hours-based to a competency-based training system. Within this approach, training is complete when a learner can demonstrate competent performance. Training based on competency is an increasingly popular approach in aviation. It allows for an alternate means of compliance with international regulations - which can result in shorter and more efficient training

programs. However there are also challenges with a competency-based approach. The definition of competency-based education can be confusing, training can be reductionist and artificially simplistic, professional interpretation of written competencies can vary between individuals, and this approach can have a high administrative and regulatory burden. *Competency-Based Education in Aviation: Exploring Alternate Training Pathways* explores this approach to training in great detail, considering the four aviation professional groups of air traffic control, pilots, maintenance engineers, and cabin crew. Aviation training experts were interviewed and have contributed professional insights along with personal stories and anecdotes associated with competency-based approaches in their fields. Research-based and practical strategies for the effective creation, delivery, and assessment of competency-based education are described in detail.

Your Business Degree helps business and commerce students to maximise their chances of success in their degree studies and increase their readiness for employment after they graduate. By targeting the development of graduate competencies and academic skills, in line with TEQSA requirements, this book will help facilitate critical, minimum learning outcomes for any business student. It will be particularly appropriate for AACSB-accredited Business degrees as it is closely aligned to Assurance of Learning standards and requirements.

The poetics of religious experience investigates creativity of a particular kind, namely explorations in the language of symbols and metaphors, which constitute the core ideas and vision of a religious tradition. In examining the symbolic and imaginative features of the poetics of religious experience, the author of this essay draws attention to a number of critical issues - literary, philosophical, and historical - which lie behind various interpretations of Islam, and their relevance to the intellectual needs of the Muslim world today. Although these themes are addressed in the Islamic context, they are, in fact, of seminal importance to the more general problem of knowledge and interpretation, and in the wider field of comparative religion, human psychology, and culture.

The Nag Hammadi Scriptures, edited by Marvin Meyer, is the most complete, up-to-date, one-volume, English-language edition of the renowned library of Gnostic manuscripts discovered in Egypt in 1945, which rivaled the Dead Sea Scrolls find in significance. It includes the Gospel of Thomas, the Gospel of Mary, and the recently discovered Gospel of Judas, as well as other Gnostic gospels and sacred texts. This volume also includes introductory essays, notes, tables, glossary, index, etc. to help the reader understand the context and contemporary significance of these texts which have shed new light on early Christianity and ancient thought. The compilation of ancient manuscripts that constitute The Nag Hammadi Scriptures is a discovery that challenges everything we thought we knew about the early Christian church, ancient Judaism, and Greco-Roman religions.
