This student book covers the full diploma including in-depth coverage of the four mandatory units and 11 most popular optional units, giving you the breadth to tailor the course to your learners' needs and interests. Assessment activities give practice for all grading criteria for the units covered.

The component of school education which focuses on psychomotor learning through movement exploration and play is known as physical education. It also seeks to impart knowledge regarding the health benefits of regular exercise and balanced diet as well as the risks associated with inactivity and poor diet. The system of activities which are based on physical athleticism or physical dexterity fall under the category of sports. They are generally used to maintain and improve physical abilities and skills. Sports are generally governed by a set of rules which exist to ensure fair competition and allow consistent adjudication of a winner. Some of the associated fields of study related to sports are sports engineering and sports science. It presents these complex subjects in the most comprehensible and easy to understand language. The various advancements in the fields of physical education and sport are glanced at and their applications as well as ramifications are looked at in detail. This book will help the readers in keeping pace with the rapid changes in these fields.

Please note: Specification changes to Unit 3 were announced by Pearson in late May 2021. These changes will apply to learners sitting Unit 3 exams from January 2022 and onwards. This means that Unit 3 within this book does not now match the revised specification. Units 4,5,6 and 7 within this book remain unchanged. There is a new Book 2 Revised Edition for the revised Unit 3 specification coming in Spring 2022. / Written by Cara Flanagan and other leading authors, two books support the Pearson BTEC Level 3 National in Applied Psychology and are endorsed for BTEC. / Book 2 covers the Extended Certificate Units and Book 1 covers the Certificate Units. The Extended Certificate comprises of four units - the Certificate Units plus Health Psychology and one optional unit. / Each book provides knowledge and evaluation of theories and studies combined with many engaging activities to deliver the vocational element; / Activities aim to prepare you for internal and external assessments; / A brilliant visual style and tone will encourage you through every step of the course.

This is a complete teaching and learning package for the 2011 specifications helping both students and tutors to get the best results.

The student book focuses on developing the skills behind the established 'pre-production, production, post-production, reviewing' process that underpins creative media production. It helps learners achieve their potential, provides assessment activities, and grading tips for pass, merit and distinction.

This student text provides all the underpinning knowledge needed to pass the BTEC first diploma. It provides learning objectives to help the reader focus on what they need, up-to-date case studies and assessment activities to test the readers' knowledge and understanding.

The aim of this book is to provide comprehensive coverage of topics in Unit 1 of the BTEC Level 3 course in Information Technology in an interesting and approachable manner. If you are studying this course, you need to notice, read about, experience and analyse the impact and implications of current and emerging digital technologies. Examples and case studies from scenarios and events that have recently been in the news are used to bring the subject to life. Reading and discussing articles from quality newspapers, whether printed or online, discussing relevant TV documentaries, noticing and analysing the use of digital technology in countless aspects of life, as well as learning from a textbook, are all going to contribute to a successful exam result. The book is divided into six sections corresponding to the six Learning Aims outlined in the specification, complementing each of the PG Online teaching resource packs. These sections are divided into between four and eight chapters, each containing material that can be covered in one or two lessons. The chapters have in-text questions which can be used as discussion points in a lesson. An extra chapter at the end of Learning Aim B on "Drawing System Diagrams" will be useful for students faced with a question on the exam for which they are required to draw such a diagram. In addition to almost 100 in-text questions and discussion points, there are over 80 end-of-chapter exercises that are designed to give practice in answering exam-style questions, using command words such as state, describe, explain, analyse. As much practice as possible is needed in answering such questions and getting feedback from the teacher so as to understand how to gain the maximum possible marks in the final exam.

*Covers 16 units of the new specification, giving learners enough units to cover the full diploma. 12 units are supplied in print, with a further 4 supplied online. *Embedded Functional Skills and Personal Learning and Thinking Skills with activities throughout the book. *Achieve your potential: Assessment activities and grading tips in each unit give learners plenty of practice to deepen their knowledge and understanding, clearly explaining what they need to do for Pass, Merit and Distinction, so they can achieve their best possible grade. *Edexcel's Assignment tips: Written by experts in the BTEC team, there's invaluable unit-by-unit advice on how learners can get the most from their BTEC course. *Put yourself in the professionals' shoes: WorkSpace case studies take learners into the real world of work, showing them how they can apply their knowledge in a real-life context. *Advice from former students showing current learners how they can make their BTEC experience a stepping stone to success.
