

## Acces PDF Electric Circuit Cloze Answers

# Electric Circuit Cloze Answers

Getting the books **electric circuit cloze answers** now is not type of challenging means. You could not lonely going with books addition or library or borrowing from your links to entre them. This is an definitely easy means to specifically acquire guide by on-line. This online message electric circuit cloze answers can be one of the options to accompany you later having new time.

It will not waste your time. undertake me, the e-book will entirely publicize you additional event to read. Just invest little

## *Electric Circuits Cloze Answers*

An electric circuit is a closed energized network. A network is not necessarily a circuit example T network. Q.2. Define current, voltage and power. Answer: The time rate of flow of electric charge across a cross-sectional boundary is termed as current. Voltage is defined as work done in moving a unit positive charge once around the closed path.

It might have a dead battery. It might have two leads connected to the positive pole of the battery and none connected to the negative. It might have a break in the circuit. All of the above. Dead batteries, incorrectly wired leads and breaks in the circuit are just some of the reasons why a circuit might not work. 2.

An electrical circuit consists of wires, components (like switches and bulbs) and a cell or other source of power. A circuit needs to be complete for electricity to flow through it. If there is a break in the circuit, the electricity cannot pass. The amount of electricity passing through a circuit can be measured in volts and amps. The voltage tells you how much electrical energy there is. The current (number of amps) tells you how much electricity is flowing through the circuit.

Embedded answers (Cloze)  
questions consist of a passage of  
text (in Moodle format) that has  
various answers embedded within  
it, including multiple choice, short  
answers and numerical answers.  
Until mid2013, there was no  
graphical interface to create  
these questions within your  
Moodle site - you needed to  
specify the question format using  
the text box or by importing them  
from external files.
