Interaction

The Importance of Face-to-Face
Communication

The nuances of communication can really only be felt in face-to-face communications. Great business communicators become adept at reading even the tiniest facial expressions and body language, and picking up on changing emotions. About 93% of communication effectiveness is determined by non-verbal cues.

Face to face communication was considered by delegates and meeting organisers to contribute most to effectiveness of negotiation for contracts or business deals, followed by learning new skills and training on key aspects of their job. Meeting organisers also thought it was effective for interviewing to find the ideal candidate.
