In *Take Back The Fight*, Nora Loreto examines the state of modern feminism in Canada and argues that feminists must organize to take back feminism from politicians, business leaders and journalists who distort and obscure its power.

The World Youth Report is the flagship publication on youth issues of the Department of Economic and Social Affairs of the United Nations Secretariat. This 2015 edition intends to provide fresh perspective and innovative ideas on civic engagement and to serve as an impetus for dialogue and action. The objective of the Report is to provide a basis for policy discussions around youth civic engagement in order to ensure that young people are able to participate fully and effectively in all aspects of the societies in which they live. It comprises five chapters, with three sections respectively focusing on the economic, political and community-based engagement of youth, and a final chapter that offers key conclusions and recommendations.

The mining industry continues to be at the forefront of colonial dispossession around the world. It controls information about its intrinsic costs and benefits, propagates myths about its contribution to the economy, shapes government

policy and regulation, and deals ruthlessly with its opponents. Brimming with case studies, anecdotes, resources, and illustrations, *Unearthing Justice* exposes the mining process and its externalized impacts on the environment, Indigenous Peoples, communities, workers, and governments. But, most importantly, the book shows how people are fighting back. Whether it is to stop a mine before it starts, to get an abandoned mine cleaned up, to change Laws and policy, or to mount a campaign to influence investors, *Unearthing Justice* is an essential handbook for anyone trying to protect the places and people they love.

On a chilly April day in 2001, some 75,000 protesters flooded the streets of Quebec City to denounce corporate globalization and a neoliberal trade deal. From that wellspring of activist anger, energy, and hope came the founding of *rabble.ca*: an alternative news source and community space that reported on Canadian politics from the ground, catching the attention of journalists and activists across the country. Since then, Canada has seen the rise of Harper Conservatism and its replacement by a Liberal government; a decline in union power; the stalled beginnings of reconciliation with Indigenous nations; the birth of Black Lives Matter; an invigorated climate justice movement; and more. These stories of activist struggle lie at the heart of *Everything on (the) Line*, a collection of *rabble*'s most incisive articles from the past twenty years. Editors S. Reuss and Christina Turner guide readers deftly through *rabble*'s deep and storied archives, combining critical analysis with new essays from celebrated activists and writers such as Russell

Diabo, Nora Loreto, Phillip Dwight Morgan, and Monia Mazigh. Each vital selection marks a flashpoint in Canadian politics—and an opportunity to reflect on the social movements that have challenged capitalism, racism, settler colonialism, and patriarchy over the past two decades.

Most Canadians know that Stephen Harper has had a tremendous impact on the country since becoming prime minister in 2006. But few have the in-depth knowledge of how far his transformation has gone -- what has already been done, and what the consequences will be in the future. This book brings together Canadian experts in a wide variety of areas. They document key changes put in place by the Harper government. There have been dramatic changes in education, health care, women's rights, science and research, guiding the economy, labour unions, water and natural resources, and aboriginal affairs. Most of these measures have been designed to be difficult, if not impossible, to reverse. Readers will for the first time grasp the breadth and depth of the Harper attack on institutions, policies, and programs that embody values and principles shared by most Canadians. Each chapter documents the dangers of a government fixated on the needs of corporations and the one percent, blinded to our environmentally unsustainable lifestyle, and expanding surveillance and security measures to intimidate and threaten opponents. The contributors to this book believe that engagement in public affairs by the citizenry can trump the power of the elites and the giant corporations who are the winners of the Harper era. As activists in public

life, they propose strategies and measures to create a Canada that champions fairness, social justice, real democracy in our government institutions, action to reverse global warming, and a constructive role in world affairs.

An engaging and intimate journey of personal and political discovery.

With extensive examples from both historical and social science literature, this book is a practical guide to methods of recording oral history. The author provides suggestions on a range of techniques from developing a written interview guide and using tape recorders to asking probing questions during in-depth interviews and editing transcriptions. She also covers the ethical and legal issues involved in conducting life-history interviews and elaborates on three different types of oral history projects: community studies, biographies and family histories.

Collected for the first time, the essays that comprise *Embedded With Organized Labor* present a unique and informed perspective on the class war at home from a longtime organizer and “participatory labor journalist.” Steve Early tackles the most pressing issues facing unions today and describes how workers have organized successfully, on the job and in the community, in the face of employer opposition now and in the past. This wide-ranging collection deals with the dilemmas of union radicalism, the obstacles to institutional change within organized labor, and strategies for securing workers’ rights in the new global

economy. It also addresses questions hotly debated among union activists and friends of labor, including workers' rights as human rights, new forms of worker organization such as worker centers, union democracy, cross-border solidarity, race, gender, and ethnic divisions in the working class, and the lessons of labor history.

The Canadian Auto Workers union, the CAW, has a long and rich history. Part of the U.S.-based United Auto Workers for almost fifty years, the CAW separated from its American parent in 1985. Today, the Canadian Auto Workers union encompasses members from a broad range of industries. It is also one of the most powerful unions in the country. Yet few people know the union's history, how it acquired its strength, or what accounts for its split with its American parent. This illustrated history provides a fascinating look at the union from its origins to the present. Beginning in the twenties, Sam Gindin describes the early years of the automobile industry and the emergence of GM, Ford, and Chrysler. He looks at the birth of the UAW in 1936, the conflicts that rocked the union in the fifties, the signing of the Autopact in the sixties, and the historic split of the Canadian section from the UAW two decades later. Finally, he considers the issues facing the union and the Canadian labour movement as the century draws to a close. By providing a profile of the CAW as well as the labour and social movements that it helped shape, The Canadian Auto Workers offers us something unusual -- an engrossing glimpse of our past, written from a union perspective.
