In GLO-BUS, 1 to 5 class members run companies that are in a neck-and-neck race for global market leadership in two product categories: (1) wearable video cameras and (2) sophisticated camera-equipped copter drones. As many as 12 companies can compete in a single industry grouping (class sizes above 50 are typically divided into two or more industry groups). The companies compete in a global ...

Based on the reputable US text the 2nd Southern African Edition of Crafting & Executing Strategy covers what every senior-level or entry-level MBA student in Southern Africa needs to know about crafting, executing and aligning business strategies, through presentation of core concepts and analytical techniques. A separate case and readings sections build on the main text by demonstrating the theory in practice. The core concepts are explained in language that Southern African students can grasp and provide relevant examples as used by small, medium and large SA companies.

This new edition of Craftingand Executing Strategy continues to provide a valuable resource forEuropean readers while embracing new and updated core concepts and key theoriesin strategy. Throughout the text you will find a range of examples thatillustrate how strategy works in the real world and encourage the practicalapplication of learning. Complementing the chapters is a section of new casesproviding in-depth analysis of the challenges of strategic management at range of companies. This edition includes: • A new 6Ds framework, allowing readers to structure theirapproach to strategic management around the fundamental elements of thestrategy process (Diagnosis, Direction, Decisions and Delivery) and the contextwithin which that process is managed (Dynamism and Disorder). • Opening cases that begin each chapter and feature real-lifebusiness scenarios from companies such as Tinder, Ikea and Victorinox,introducing strategic concepts and theories. • Illustration Capsules, which have been updated to illustratecontemporary business concerns and demonstrate how companies have reactedstrategically, increasing understanding of successful strategies. Companiesfeatured include Burberry, TOMS, Aldi, Novo Nordisk and more. • Key Debates that stimulate classroom discussion and encouragecritical analysis. • Emerging Themes that present contemporary strategicopportunities and issues such as ripple intelligence and technology and neworganizational structures. • A Different View encouraging readers to appreciate differingviewpoints on strategic concepts and theories. • End of chapter cases that capture each chapter's main theoriesthrough engaging cases on companies such as Adidas and Nike, Lego and Uber. • New recommended reading at the end of each chapter which help tofurther knowledge, including classic texts and advanced reading, and authornotes providing context Connect is McGraw-Hill Education's learning and teachingenvironment that improves student performance and outcomes while promotingengagement and comprehension of content. New for this edition are interview-style videos, featuring authorAlex James in discussion with business leaders, exploring how organizationalstrategy has developed within companies as diverse as Jeep, Levi Strauss, NovoNordisk and a prestigious oil and gas company. The videos are provided infull-length or in segments, with questions aimed at encouraging classroomdiscussion or self-testing. This new edition is available with SmartBook, McGraw-HillEducation's adaptive, digital tool that tests students' knowledge of key conceptsand pinpoints the topics on which they need to focus study time. Crafting and Executing Strategy is also available with both TheBusiness Strategy Game and GLO-BUS - the world'sleading business strategy simulations.

Meant to aid State & local emergency managers in their efforts to develop & maintain a viable all-hazard emergency operations plan. This guide clarifies the preparedness, response, & short-term recovery planning elements that warrant inclusion in emergency operations plans. It offers the best judgment & recommendations on how to deal with the entire planning process -- from forming a planning team to writing the plan. Specific topics of discussion include: preliminary considerations, the planning process, emergency operations plan format, basic plan content, functional annex content, hazard-unique planning, & linking Federal & State operations.

Thorough yet concise, ESSENTIALS OF STRATEGIC MANAGEMENT, Third Edition, is a brief version of the authors' market-leading text STRATEGIC MANAGEMENT: AN INTEGRATED APPROACH. Following the same framework as the larger book, ESSENTIALS helps students identify and focus on core concepts in the field in a more succinct, streamlined format. Based on real-world practices and current thinking, the text's presentation of strategic management features an increased emphasis on the business model concept as a way of framing the issues of competitive advantage. Cutting-edge research, new strategic management theory, and a hands-on approach allow students to explore major topics in management, including corporate performance, governance, strategic leadership, technology, and business ethics. In addition, a high-quality case program examines small, medium, and large companies--both domestic and international--so that students gain experience putting chapter concepts into real-world practice in a variety of scenarios. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This title responds head-on to the growing requests by business faculty for a concise, theory-driven strategic management concepts and cases text.

Game theory has become increasingly popular among undergraduate as well as business school students. This text is the first to provideboth a complete theoretical treatment of the subject and a variety ofreal-world applications, primarily in economics, but also in business, political science, and the law. Game theory has become increasingly popular among undergraduate as well as business school students. This text is the first to provide both a complete theoretical treatment of the subject and a variety of real-world applications, primarily in economics, but also in business, political science, and the law. Strategies and Games grew out of Prajit Dutta's experience teaching a course in game theory over the last six years at Columbia University.The book is divided into three parts: Strategic Form Games and Their Applications, Extensive Form Games and Their Applications, and Asymmetric Information Games and Their Applications. The theoretical topics include dominance solutions, Nash equilibrium, backward induction, subgame perfect equilibrium, repeated games, dynamic games, Bayes-Nash equilibrium, mechanism design, auction theory, and signaling. An appendix presents a thorough discussion of single-agent decision theory, as well as the optimization and probability theory required for the course.Every chapter that introduces a new theoretical concept opens with examples and ends with a case study. Case studies include Global Warming and the Internet, Poison Pills, Treasury Bill Auctions, and Final Jeopardy. Each part of the book also contains several chapter-length applications including Bankruptcy Law, the NASDAQ market, OPEC, and the Commons problem. This is also the first text to provide a detailed analysis of dynamic strategic interaction.

This exciting new textbook is built on the belief that strategic management principles are more straightforward than they seem. Unlike other textbooks, Essentials of Strategic Management does not overcomplicate the discussion with enigmatic layers of theory or irrelevant perspectives from other disciplines. Instead you will find focused, clearly articulated coverage of the key topics of strategic management, encouraging critical reflection and deeper exploration on your own terms. Fully developed to cover the essentials of any strategic management course, authors Martyn R. Pitt and Dimitrios Koufopoulos not only create understanding of the principles of strategy, but shows you how to apply them constructively in the face of real-world practicalities.

STRATEGIC MANAGEMENT: Creating Competitive Advantages, 3/e, by Dess, Lumpkin, and Eisner, responds to the demands of today's rapidly changing and unpredictable global marketplace that students will face when they enter the business world. The concepts-only text provides students with a timely, rigorous, and relevant book written in an engaging manner to spur their interest and excitement. This book provides a solid treatment of traditional topics in strategic management as well as contemporary topics such as entrepreneurship, knowledge management, and e-commerce and internet strategies. Numerous applications from business practice plus sidebars (approximately six per chapter) bring key concepts to life. Instructors can create their own case volumes for use with Strategic Management 3rd Edition from a variety of source- pre-selected case packets, customizing from a recommended set which have been carefully mapped to the chapter concepts, or from the entire Primis database which features cases from Harvard, Darden, INSEAD, Ivey, and other reputable sources.
