American Democracy. American democracy is precious. When the U.S. Constitution was ratified in 1879, America became the first modern democracy in the world. Its Constitution served as a model for many countries that have since established democracies. But time has moved on and America's democracy no longer ranks as a world model.

How Democratic is the American Constitution? is a book by political scientist Robert A. Dahl that discusses seven "undemocratic" elements of the United States Constitution. The book defines "democratic" as alignment with the principle of one person, one vote, also known as majority rule. The author praises the Framers of the Constitution as "men of exceptional talent and virtue" who made admirable progress in the creation of their republican government. But Dahl also points out that innovation a
