International Standard IEC 61508-3 has been prepared by subcommittee 65A: System aspects, of IEC technical committee 65: Industrial-process measurement, control and automation.

~~INTERNATIONAL STANDARD NORME INTERNATIONALE~~

IEC 61508 is the international standard for electrical, electronic and programmable electronic safety related systems. IEC 61508:2010 was published as Edition 2 in 2010. It sets out the requirements for ensuring that systems are designed, implemented, operated and maintained to provide the required safety integrity level.

~~What is IEC 61508?~~

Parts 1, 2, 3 and 4 of IEC 61508 are designated as IEC basic safety publications. This means that IEC Technical Committees will have to use these parts in the preparation of each of their own product or application sector international standards that has E/E/PE safety-related systems within its scope. IEC 61508 will therefore have far reaching implications across all IEC application sectors.
