A criminal court judge is found hanging from a tree. A young employee of the district attorney's office goes missing. In this third book of the best-selling Joe Dillard series, Dillard finds himself in the middle of two volatile mysteries. The primary suspect in the judge's murder is Dillard's son's best friend, and Dillard's wife may have destroyed evidence. Meanwhile, the missing girl turns out to be a mystery far more deeper than anyone imagined... "Pratt's richly developed characters are vivid and believable." - "Publisher's Weekly." "It's Scott Turow and Grisham..." - Ken Bruen. "Pratt knows what he's doing and it shows." - Alifair Burke.

American criminal justice is a dysfunctional mess. Cops are too violent, the punishments are too punitive, and the so-called Land of the Free imprisons more people than any other country in the world. Understanding why means focusing on color—not only on black or white (which already has been studied extensively), but also on green. The problem is that nearly everyone involved in criminal justice—including district attorneys, elected judges, the police, voters, and politicians—faces bad incentives. Local towns often would rather send people to prison on someone else's dime than pay for more effective policing themselves. Local police forces can enrich themselves by turning into warrior cops who steal from innocent civilians. Voters have very little incentive to understand the basic facts about crime or how to fix it—and vote accordingly. And politicians have every incentive to cater to voters' worst biases. Injustice for All systematically diagnoses why and where American criminal justice goes wrong, and offers functional proposals for reform. By changing who pays for what, how people are appointed, how people are punished, and which things are criminalized, we can make the US a country

which guarantees justice for all. Key Features: Shows how bad incentives, not "bad apples," cause the dysfunction in American criminal justice Focuses not only on overincarceration, but on overcriminalization and other failures of the criminal justice system Provides a philosophical and practical defense of reducing the scope of what's considered criminal activity Crosses ideological lines, highlighting both the weaknesses and strengths of liberal, conservative, and libertarian agendas Fully integrates tools from philosophy and social science, making this stand out from the many philosophy books on punishment, on the one hand, and the solely empirical studies from sociology and criminal science, on the other Avoids disciplinary jargon, broadening the book's suitability for students and researchers in many different fields and for an interested general readership Offers plausible reforms that realign specific incentives with the public good.

This is a true story of Jerry Eller's credit being confused with a criminal in 1997. What began as a simple human error evolved into a nightmare that no American citizen should have to experience. This book names the lawyers, politicians, corporations and military personnel who ignored, neglected and contributed to Jerry's demise. Because local, national and prominent media figures refused to expose the author's plight, he wrote this book that should be read by all Americans.

Why you have the right to resist unjust government For centuries, almost everyone has believed that we must allow the government and its representatives to act without interference, no matter how they behave. We may complain, protest, sue, or vote officials out, but we can't fight back. But in When All Else Fails, Jason Brennan argues that we have every right to react with acts of □ uncivil disobedience □ when governments violate our rights. We may resist arrest for violation of unjust laws. We may disobey orders, sabotage government property, or reveal classified information. We may deceive ignorant, irrational, or malicious voters. We may even

use force to defend ourselves or others. The result is a provocative challenge to long-held beliefs about how citizens may respond when government officials act unjustly or abuse their power.
