(PDF) Criminal Empire: The Making of the Savage in a Lawless Land | Heidi Kiiwetinepinesiik Stark - Academia.edu Indigenous resistance in the 19th century was recast as criminal activities, enabling the US and Canada to avert attention from their own illegality.

A modern nation in a state of total disorder, Colombia is an international flashpoint—wracked by more than half a century of civil war, political conflict, and drug-trade related violence—despite a multibillion dollar American commitment that makes it the third-largest recipient of U.S. foreign aid. Law in a Lawless Land offers a rare and penetrating insight into the nature of Colombia's present peril. In a nuanced account of the human consequences of a disintegrating state, anthropologist Michael Taussig chronicles two weeks in a small town in Colombia's Cauca Valley taken over by paramilitaries that brazenly assassinate adolescent gang members. Armed with automatic weapons and computer-generated lists of names and photographs, the paramilitaries have the tacit support of the police and even many of the desperate townspeople, who are seeking any solution to the crushing uncertainty of violence in their lives. Concentrating on everyday experience, Taussig forces readers to confront a kind of terror to which they have become numb and complacent. "If you want to know what it is like to live in a country where the state has disintegrated, this moving book by an anthropologist well known for his writings on murderous Colombia will tell you."—Eric Hobsbawm

An insider account of the struggle to reform the Soviet/Russian legal system and create a law-based society. This text situates the formal commitment to democratic politics, and the creation of a legal and constitutional order within the context of Russian history and tradition.

Herschel Baker left his life as a rancher to become the first sheriff of Horse Creek, Montana. Only weeks into the job, he 's about to find out what it means to bring the law to a lawless land. It 's up to Herschel to stop all forms of criminality—including the old vigilante justice that once ran the town. When the cowboy Billy Hanks is found hanging from a tree with the label Hoss Steeler pinned to his chest, the culprits must be caught whether or not the accusation is true. With nothing to go on but a dead body, a misspelled note, and a wounded horse, Herschel refuses to look the other way. Someone 's going to pay for this dirty deed—found guilty by the right and proper letter of the law.

In a lawless land infested with the walking dead, the man with the biggest gun makes the law. Former deputy Jake Blakely has the big gun, and he has the law - Jake's Law. He is the judge, the jury, and the executioner. He is the law.

American society in the 1800s had a rough edge to it. In a nation made up of people of diverse backgrounds and heritage, social controls needed to be strict and enforceable. The extreme economic inequality of America's cities and the wide-open moral code of the frontier led to a culture of crime and violence that still plagues our country. During the 1800s, professional police forces were established in cities, towns, and territories across the continent. On the frontier, "justice" was often swift and severe, with "hanging judges" making their reputations as representatives of the law in a lawless land. Long prison sentences in miserable conditions were the rule for criminals, and many a prisoner might have preferred the option of a quick execution. Before the reform of the legal system—which is an ongoing process—there was definitely a separate law, and a separate standard of penalties, for the rich and for the poor. The evolution of a humane penal system and a fairer protection of all citizens under the law is an important contribution of 1800s America to the modern world.

This paper endeavors to determine what Palestinians' water rights are in the West Bank. After finding that the law governing the resource, in this case ground water accessed through springs, is inadequate to provide a right, I argue that a human right to water exists, is applicable in this context, and is violated. This paper seeks only to establish that the right exists. Enforcement of that right is another question that I aim to address in the Fall of 2012 with another paper.

The late eighteen hundreds was a time of growth and expansion in this great country. The land was open and wild. Often the land was waiting for the strong to take it and make something of it. It took courage just to keep it once it was settled Laws were often few and far between. The law was often what man made of it. It was also a time when the land grew. Towns sprouted up all over the country and stagecoaches tied them together with ribbons of narrow , often dangerous, roads. Often men hunted men for the bounty on their heads, while some hunted others so that justice could be met. THE OLD WEST is a collection of short stories that show what it took to build in the west. The stories show how men fought to survive, fought to bring law and order to a lawless land, and the perils that faced those who simply traveled across the land. The stories are fiction, yet they could have happened to any of the many souls that will never be known

who reached out to the west for a better life.

They entered the valley, harsh yet beautiful. With danger around every hill. Where only a fast gun and quick thinking can save a person, and even then only with luck. A lot of luck. Rex Mumford brings to life in this western novel much of the suspense, action, and surprise of the traditional old west. Follow the lives of those portrayed in this novel during a time when men and women wanted little more than some land and to live peacefully. Yet when faced with difficult challenges they could and would meet them head on. Often they were the judge and jury with little time to decide the fate of those that wronged them. When someone draws on you, you only have two choices, be faster or die in: The Lawless Land Brown's Hole, one of the stops along the outlaw trail. A beautiful valley for ranching, but also a haven for those hiding from the law with no were else to run. More often than not, they possessed only a fast horse, and even faster gun hand. It was fight or die. Most fought, some died. Two deputy marshals, leaving their badges and authority behind, and a girl with a different agenda, all enter the valley known as Brown's Hole. Two looking for answers, one looking for revenge. Faced with challenges and odds never before faced, each will find what they are looking for and a whole lot more than they bargained for. The only problem is surviving.
