known or assumed control point, with optional reference target measurement to set the azimuth direction, and establishing a local or global coordinate system. The Leica ScanStation P20 allows you to traverse, resect or free-station.

Leica ScanStation P20 - Leica Surveying Solutions

Leica ScanStation P20 is the first laser scanner to feature a valuable “Check & Adjust” capability. Instead of sending the instrument to a service centre, users can electronically check the accuracy of their ScanStation P20 themselves and automatically adjust instrument parameters to ensure the highest level of performance.

Leica ScanStation P20 - Leica Surveying Solutions

The Leica ScanStation P50 delivers highest quality 3D data and HDR imaging at an extremely fast scan rate of 1 mio points per second at ranges of > 1 km. Unsurpassed range and angular accuracy paired with low range noise and survey-grade dual-axis compensation form the foundation for highly detailed 3D colour point clouds mapped in realistic clarity.
