This study examines the relation between a firm's business strategy and its corporate social responsibility (CSR) performance. Using a comprehensive measure of business strategy based on the Miles and Snow (Organizational strategy, structure, and process, McGraw-Hill, New York, 1978, Organizational strategy, structure, and process, Stanford University Press, Stanford 2003) theoretical ...

Management Accounting: Information for Creating and Managing Value 6e explains the contemporary role of management accounting in organisations and demonstrates how it creates and enhances value for shareholders. This text has been developed using major cases based on real Australian businesses and includes numerous illustrations of current management accounting practices of organisations in Australia, New Zealand and the wider Asia-Pacific region. It takes a broad perspective in viewing management accounting as the efficient and effective use of resources, supporting managers in the improvement of customer and shareholder value. The strategic and topical focus has been further developed and strengthened, new questions have been added, text-flow streamlined and extensive revisions have been made to capital expenditure decisions, activity and target-based costings, corporate social responsibility, and supply chain management. Respected authors, a clear writing style and a wealth of features that reference the management accounting practices of real-life companies have made Management Accounting the most popular management accounting text in Australia.

This new Southern African edition of Kim Langfield-Smith and Helen Thorne's best-selling Australian Management Accounting text explains the contemporary role of management accounting in organisations - supporting a company's quest for enhancing shareholder and customer value. The effective management of resources, both financial and non-financial, is essential to creating value. Retaining the strategic approach and comprehensive coverage but thoroughly adapted for Southern Africa, Management Accounting Southern African edition is suitable for the one- or two-semester undergraduate course, and is ideal for use over two years of study.

These proceedings represent the work of researchers participating in the 6th International Conference on Management, Leadership and Governance (ICMLG 2018) which is being hosted this year by the Institute for Knowledge and Innovation Southeast Asia (IKI-SEA), a Centre of Excellence of at Bangkok University, Thailand on 24-25 May 2018.

For non-accountant hospitality managers, accounting and financial management is often perceived as an inaccessible part of the business. Yet having a grasp of accounting basics is a key part of management. Using an 'easy to read' style, this book provides a comprehensive overview of the most relevant accounting information for hospitality managers. It demonstrates how to organise and analyse accounting data to help make informed decisions with confidence. With its highly practical approach, this new Edition: Quickly develops the reader's ability to adeptly use and interpret accounting information to further organisational decision making and control Demonstrates how an appropriate analysis of financial reports can drive your business strategy forward from a well-informed base Develops mastery of key accounting concepts through financial decision making cases that take a hospitality manager's perspective on business issues Presents accounting problems in the context of a range of countries and currencies Includes a new chapter that addresses a range of financial management topics that include share market workings, agency issues, dividend policy as well as operating and financial leverage Includes a further new chapter that provides a financial perspective on revenue management Includes accounting problems at the end of each chapter to be used to test knowledge and apply understanding to real life situations Offers extensive web support for instructors and students that includes powerpoint slides, solutions to end of chapter problems, test bank and additional exercises. The book is written in an accessible and engaging style and structured logically with useful features throughout to aid students' learning and understanding. It is a key resource for all future hospitality managers.

Current modern companies, which are also the key factors of a global economy, are subject to increasing pressures to conduct their business in an environmentally responsible manner, due to social and environmental problems. Improving long-term environmental performance can bring economic benefits to those companies that are innovative and environmentally sensitive, especially by integrating environmental information into their business strategies. Considering all the changes, sustainability reporting, management, and financial accounting becomes a powerful information tool for executives, managers, and employee teams to gain insights and make better decisions. Along with concepts such as ethical, controlling, auditing, management, and financial accounting, reporting provides value with the decision-making process. All these debates underline the major responsibility of users when configuring accounting and finance models and thereby in modelling business information. Sustainability Reporting, Ethics, and Strategic Management Strategies for Modern Organizations proposes an interdisciplinary perspective and explores various theoretical and practical approaches of ethical standards, management accounting, and their impact in the 21st century on different areas of activity. It contrasts external financial accounting for government regulators and the investment community with internal management accounting for managers to leverage for decision making. In addition, the book examines the role of management accounting and sustainability reporting from other points of view such as ethical standards, corporate social responsibility, creative accounting, green accounting, environmental indicators, e-accounting, KPI, lean accounting, controlling, auditing, reporting, etc., offering a number of new insights into management accounting. It is intended for chief financial officers, financial controllers, business analysts, financial planners, financial analysts, budgeting managers, executives, managers, academicians, researchers, and students.

This new edition explains the contemporary role of management accounting in organisations - supporting a company's quest for enhancing shareholder and customer value. The effective management of resources, both financial and non-financial is essential to creating value. Includes many Australian and regional case studies.

Winner of the Management Accounting section of the American Accounting Association notable contribution to Management Accounting Literature Award Volume One of the Handbook of Management Accounting Research series sets the context for the Handbooks, with three chapters outlining the historical development of management accounting as a discipline and as a practice in three broad geographic settings. Volume Two provides insights into research on different management accounting practices. Volume Three features contributions from some of the most influential researchers in various areas of management accounting research, consolidates the content of volumes one and two, and concludes with examples of management accounting research from around the world. Volumes 1, 2 and 3 are also available as individual product. * ISBN Volume 1: 978-0-08-044564-9 * ISBN Volume 2: 978-0-08-044754-4 * ISBN Volume 3: 978-0-08-055450-1 * Three volumes of the popular Handbooks of Management Accounting Research series now available in one complete set * Examines particular management accounting practices and specific organizational contexts * Adopts a global perspective of management accounting practices Award: "Winner of the Management Accounting section of the American Accounting Association notable contribution to Management Accounting Literature Award."

To achieve a better understanding of the influence of National Culture, Corporate Culture and Leadership Style on Lean Six Sigma implementation and Corporate Success a quantitative empirical web-based survey with Lean Six Sigma professionals involved in the social professional network LinkedIn was carried out by Miriam Jacobs. The outcome of this survey suggests, that certain constellations of these five factors are more successful than others. Companies with an almost equal balance across different Leadership Styles and types of Corporate Culture achieve the best results, while companies equipped with a Rational and Hierarchical Corporate Culture in the absence of transformational, participative or supportive leadership are likely to fail.

"This 10-volume compilation of authoritative, research-based articles contributed by thousands of researchers and experts from all over the world emphasized modern issues and the presentation of potential opportunities, prospective solutions, and future directions in the field of information science and technology"--Provided by publisher.
