Now that we understand that a MID is  
a component, such as an engine, it  
can be further broken down in to  
subsystems. Each subsystem has its  
own set of SIDs. For example, MID  
128 (Engine) could have SID 6 for  
Injector number 6. However SID 6 on  
a Mid 136 (Transmission) is for the C6  
Solenoid Valve.
