Termed Observable Practice Activities (OPAs), OPAs are a collection of learning objectives as activities that must be observed in daily practice in order to form entrustment decisions. OPAs are described as small units, a number of which map to an EPA and one or more competencies and milestones.

The Next Steps in Competency-Based Medical Education ...

Assessment of individual competencies through milestones can be challenging. While competencies describe characteristics of the person, the entrustable professional activities (EPAs) concept refers to work-related activities. EPAs would not replace the milestones but would be linked to them, integrating these frameworks.

Integration of Entrustable Professional Activities with ...

Entrustable Professional Activities. At the 2012 APDIM Spring Conference, the AAIM Education Redesign Committee proposed a draft set of entrustable professional activities (EPAs) to help program directors achieve the goals of competency-based medical education. Using feedback provided by members of the AAIM community, the AAIM Education Redesign Committee revised and slightly expanded this list of EPAs to include 16 activities that constitute the core of the profession.
