MT4 High Probability Forex Trading Method by Jim Brown
High probability trading — using Stochastic to identify areas of value A big mistake most traders make is, going short just because the price is overbought, or oversold. Because in a strong trending market, the market can be overbought/oversold for a sustained period of time (and if you're trading without stops, you risk losing your entire account).

MT4 High Probability Forex Trading Method > Income Heaven ...
High probability trading refers to the likelihood of whether a trade will win or not. Making high probability trades is crucial for a successful trader because no matter how great the trader is, they will have losing trades. This is a fact. The market will move in unexpected ways and losses will happen.
