Origami is the art of paper folding, which is often associated with Japanese culture. In modern usage, the word "origami" is used as an inclusive term for all folding practices, regardless of their culture of origin. The goal is to transform a flat square sheet of paper into a finished sculpture through folding and sculpting techniques. Modern origami practitioners generally discourage the use of cuts, glue, or markings on the paper. Origami folders often use the Japanese word kirigami to refer

Origami Art & Paper Craft - Learn how to make origami ...

German educator Friedrich Froebel (1782–1852), inventor of the kindergarten, was an avid proponent of paper folding and its educational benefits, and he helped to spread paper folding around the world. Three basic types of folds are associated with him: the Folds of Life (basic folds that introduced kids to paper folding), the Folds of Truth (teaching basic principles of geometry), and the Folds of Beauty (more-advanced folds based on squares, hexagons, and octagons); the famed folded and ...
