The Middle East is a continuing crisis area in world politics. This crisp and penetrating book, first published in 1971, analyses the historical development of the major issues in Arab politics, explains the conflicting interests now at stake in the Middle East and how the politics of the area were likely to develop. It examines, among other topics, the Palestine Liberation Movement, the prospects for Arab unity, and Great Power interference, and was written by one of the world's leading scholars writing on the Middle East.

First Published in 2003.

Routledge is an imprint of Taylor & Francis, an informa company.

This long-time best-seller uses a thematic, rather than country-by-country, approach to the region in an analysis that is at once comprehensive and, at the same time, does not underestimate the intelligence of the college audience. The authors wrote this book because there were no introductory texts taking a holistic perspective on the region. This book employs a multidisciplinary

approach (political science, economics, history, anthropology) to explain the current political dynamics of the region. It avoids a country-by-country approach in favor of a thematic approach that integrates regional experiences into a whole. Major themes include political development, economic development, international relations, Islam - mainstream and jihadist, colonialism and post-colonialism; and recent political changes, with particular emphasis on the U.S. intervention in Iraq and the rising interest in democracy regionally.

Conflict in the Middle East has the potential not only for destabilizing the region or upsetting the balance of power but also affecting global stability. For these reasons, the Middle East has been a center of world affairs. This volume provides an account of international relations in the contemporary Middle East.

Taking issue with the convenient views that the Middle East is an irrational and exceptional region of world politics, and that the long and bloody history of the Palestine conflict is proof, the authors combine

theoretical reflection and empirical investigation, marrying International Relations theory and Middle East area studies. Through integrating macro and micro-perspectives, tracing the interaction of global and regional environments with individuals pursuing political goals, this book rejects the cultural stereotype of 'Middle Eastern exceptionalism' and argues that regional patterns of conflict are deeply embedded in international and transnational relations, and that their particular trajectories have to be interpreted in light of
