Science of Golf: Weather

The game of golf is intricately tied to weather conditions. As Weather Channel meteorologist Paul Goodloe explains, wind, rain, temperature and air pressure can all affect a golfer's ability to make his or her next shot. "Science of Golf" is produced in partnership with the United States Golf Association and Chevron.

*Meteorology: Something in the Air |
EnvironmentalScience.org*

Meteorology is defined as the science of the atmosphere. Meteorologists study atmospheric phenomena and the effect that the atmosphere has on our weather. By using a number of tools - such as thermometers, barometers and anemometers - meteorologists are able to collect information about the weather and use these to predict the forecast.
