On television, Wal-Mart employees are smiling women delighted with their jobs. But reality is another story. In 2000, Betty Dukes, a 52-year-old black woman in Pittsburg, California, became the lead plaintiff in Dukes v. Wal-Mart Stores , a class action representing 1.4 million women. In an explosive investigation of this historic lawsuit, journalist Liza Featherstone reveals how Wal-Mart, a self-styled "family-oriented," Christian company: · Deprives women (but not men) of the training they need to advance · Relegates women to lower-paying jobs, like selling baby clothes, reserving the more lucrative positions for men · Inflicts punitive demotions on employees who object to discrimination · Exploits Asian women in its sweatshops in Saipan, a U.S. commonwealthFeatherstone reveals the creative solutions Wal-Mart workers around the country have found-like fighting for unions, living-wage ordinances, and childcare options. Selling Women Short combines the personal stories of these employees with superb investigative journalism to show why women who work low-wage jobs are getting a raw deal, and what they are doing about it.

On television, Wal-Mart employees are smiling women delighted with their jobs. But reality is another story. In 2000, Betty Dukes, a fifty-two-year-old black woman in Pittsburg, California, became the lead plaintiff in Dukes v. Wal-Mart Stores, a class action, representing 1.6 million women. In her explosive investigation of this historic lawsuit, journalist Liza Featherstone reveals how Wal-Mart, a self-styled "family-oriented," Christian company: Deprives women (but not men) of the training they need to advance. Relegates women to lower-paying jobs like selling baby clothes, reserving the more lucrative positions for men. Inflicts punitive demotions on employees who object to discrimination. Exploits Asian women in its sweatshops in Saipan, a U.S. commonwealth. Featherstone goes on to reveal the creative solutions that Wal-Mart workers around the country have found, like fighting for unions, living-wage ordinances, and childcare options. Selling Women Short combines the personal stories of these employees with superb investigative journalism to show why women who work these low-wage jobs are getting a raw deal, and what they are doing about it. A new preface to the paperback edition will reflect on Wal-Mart's response to this lawsuit and its critics-including this one.

Over the course of the last century, the focus group has become an increasingly vital part of the way companies and politicians sell their products and policies. Few areas of life, from salad dressing to health care legislation to our favorite TV shows, have been left untouched by the questions put to controlled groups about what they do and don ' t like. Divining Desire is the first-ever popular survey of this rich topic. In a lively, sweeping history, Liza Featherstone traces the surprising roots of the focus group in early-twentieth century European socialism, its subsequent use by the " Mad Men " of Madison Avenue, and its widespread deployment today. She also explores such famous " failures " of the method as the doomed launch of the Ford Edsel with its vagina shaped radiator grille, and the even more ill-fated attempt to introduce a new flavor of Coca Cola (which prompted street protests from devotees of the old formula). As elites have become increasingly detached from the general public, they rely ever more on focus groups, whether to win votes or to sell products. And, in a society where many feel increasingly powerless, the focus group has at least offered the illusion that ordinary people will be listened to and that their opinions count. Yet, it seems the more we are consulted, the less power we have. That paradox is particularly stark today, when everyone can post an opinion on social media—our 24 hour " focus group "—yet only plutocrats can shape policy. In telling this fascinating story, Featherstone raises profound questions about democracy, desire and the innermost workings of consumer society.

A deeply-reported examination of why "doing what you love" is a recipe for exploitation, creating a new tyranny of work in which we cheerily acquiesce to doing jobs that take over our lives. You're told that if you "do what you love, you'll never work a day in your life." Whether it's working for "exposure" and "experience," or enduring poor treatment in the name of "being part of the family," all employees are pushed to make sacrifices for the privilege of being able to do what we love. In Work Won't Love You Back, Sarah Jaffe, a preeminent voice on labor, inequality, and social movements, examines this "labor of love" myth—the idea that certain work is not really work, and therefore should be done out of passion instead of pay. Told through the lives and experiences of workers in various industries—from the unpaid intern, to the overworked teacher, to the nonprofit worker and even the professional athlete—Jaffe reveals how all of us have been tricked into buying into a new tyranny of work. As Jaffe argues, understanding the trap of the labor of love will empower us to work less and demand what our work is worth. And once freed from those binds, we can finally figure out what actually gives us joy, pleasure, and satisfaction.

Now that Wal-Mart has conquered the US, can it conquer the world? As Wal-Mart World shows, the corporation is certainly trying. For a number of years, Wal-Mart has been the largest company in the United States. Now, though, it is the largest company in the world. Its global labor practices and outsourcing strategies represent for many what contemporary economic globalization is all about. But Wal-Mart is not standing still, and is opening up stores everywhere. From Germany to Beijing to Mexico City to Tokyo, more than a billion shoppers can now hunt for bargains at a Wal-Mart superstore. Wal-Mart World is the first book to look at this incredibly important phenomenon in global perspective, with chapters that range from its growth in the US and impact on labor relations here to its fortunes overseas. How Wal-Mart manages this transition in the near future will play a significant role in the determining the character of the global economy. Wal-Mart World's impressively broad scope makes it necessary reading for anyone interested in the global impact of this economic colossus.

Necessary Trouble is the definitive book on the movements that are poised to permanently remake American politics. We are witnessing a moment of unprecedented political turmoil and social activism. Over the last few years, we've seen the growth of the Tea Party, a twenty-first-century black freedom struggle with BlackLivesMatter, Occupy Wall Street, and the grassroots networks supporting presidential candidates in defiance of the traditional party elites. Sarah Jaffe leads readers into the heart of these movements, explaining what has made ordinary Americans become activists. As Jaffe argues, the financial crisis in 2008 was the spark, the moment that crystallized that something was wrong. For years, Jaffe crisscrossed the country, asking people what they were angry about, and what they were doing to take power back. She attended a people's assembly in a church gymnasium in Ferguson, Missouri; walked a picket line at an Atlanta Burger King; rode a bus from New York to Ohio with student organizers; and went door-to-door in Queens days after Hurricane Sandy. From the successful fight for a 15 minimum wage in Seattle and New York to the halting of Shell's Arctic drilling program, Americans are discovering the effectiveness of making good, necessary trouble. Regardless of political alignment, they are boldly challenging who wields power in this country.

2010 Outreach Magazine Resource of the Year award winner: justice category Every day we are confronted by challenging societal problems, from poverty and institutional racism to AIDS and homelessness. It can all seem so overwhelming. But while none of us can do everything, all of us can do something. This handbook will help you discover what you can do. Mae Elise Cannon provides a comprehensive resource for Christians like you who are committed to social justice. She presents biblical rationale for justice and explains a variety of Christian approaches to doing justice. Tracing the history of Christians in social engagement, she lifts out role models and examples from the Great Awakenings to the civil rights movement. A wide-ranging catalog of topics and issues give background info about justice issues at home and abroad, such as sex trafficking domestic violence living wage initiatives debt relief environmental stewardship bioethics and much, much more This handbook includes dozens of practical exercises for taking action, as well as profiles of key figures and movements like William Wilberforce, the Salvation Army and Bono, highlighting how Christians and churches can make a difference. Also included are spiritual practices and resources to help us move from immobility to advocacy. God has always worked through his people to accomplish improbable tasks, and he can use you too. This handbook will be an essential companion for living justly, loving mercy and walking humbly with your God.

For most of recorded history, men have held nearly all of the most powerful leadership positions. Today, although women occupy an increasing percentage of leadership positions, in America they hold less than a fifth of positions in both the public and private sectors. The United States ranks 78th in the world for women's representation in political office. In politics, although women constitute a majority of the electorate, they account for only 18 percent of Congress, 10 percent of governors, and 12 percent of mayors of the nation's 100 largest cities. In academia, women account for a majority of college graduates, but only about a quarter of full professors and university presidents. In law, women are almost half of law school graduates, but only 17 percent of the equity partners of major firms, and 22 percent of Fortune 500 general counsels. In business, women constitute a third of MBA graduates, but only 5 percent of Fortune 500 CEOs. In Women and Leadership, the eminent legal scholar Deborah L. Rhode focuses on women's underrepresentation in leadership roles and asks why it persists and what we can do about it. Although organizations generally stand to gain from increasing gender equity in leadership, women's underrepresentation is persistent and pervasive. Rhode explores the reasons, including women's family roles, unconscious gender bias, and exclusion from professional development networks. She stresses that we cannot address the problem at the individual level; instead, she argues that we need broad-based strategies that address the deep-seated structural and cultural conditions facing women. She surveys a range of professions-politics, management, law, and academia-and draws from a survey of prominent women to develop solutions that can successfully chip away at the imbalance. These include developing robust women-to-women networks, enacting laws and policies that address work/life imbalances, and training programs that start at an earlier age. Rhode's clear exploration of the leadership gap and her compelling policy prescriptions will make this an essential book for anyone interested in leveling the playing field for women leaders in America.

A study guide for Barbara Ehrenreich's "Nickel and Dime: On (Not) Getting By in America", excerpted from Gale's acclaimed Literary Newsmakers for Students series. This concise study guide includes plot summary; character analysis; author biography; study questions; historical context; suggestions for further reading; and much more. For any literature project, trust Literary Newsmakers for Students for all of your research needs.
