SIMATIC Continuous Function Chart Getting Started ...

Creating a Chart. You normally create a chart with the SIMATIC Manager (Menu command "Insert > S7 Software > CFC"); this is, however, also possible directly in the CFC editor ("Chart > New" menu command). The name must be unique on the CPU (this is checked by the system) and can be a maximum of 22 characters long.

Simatic Continuous Function Chart Getting Started

A Continuous Function Chart (CFC) is a graphic editor that can be used in conjunction with the STEP 7 software package. It is used to create the entire software structure of the CPU from ready-made blocks. When working with the editor, you place blocks on function charts, assign parameters to them, and interconnect them.
