"Management Accounting. Workbook 1 – Balance Sheet | Profit/Loss Account" is based on the textbook "Management Accounting," and is designed for supplementing the textbook "Management Accounting". The textbook "Management Accounting," describes in detail the Big Picture – the central overall connection in accounting/controlling – as well as the elements which affect this connection: Balance Sheet | Profit/Loss Account | Profit Plan | Finance Plan | Budgeted Balance Sheet. The "Workbook 1 – Balance Sheet | Profit/Loss Account" is based on the textbook "Management Accounting," and presents and explains in detail – in form of numerical examples – the effects of concrete accounting activities and business cases in and on balance sheet and profit/loss account. Target groups of "Management Accounting. Workbook 1 – Balance Sheet | Profit/Loss Account" are students of economic/business courses in the framework of their basic education or in the framework of their introductory courses, students doing post-graduate programmes, as well as managers in enterprises with practical experience – all of them facing the challenge of having to understand and to apply the basic connections of accounting in enterprises – presented in and through balance sheet and profit/loss account. "Management Accounting. Workbook 1 – Balance Sheet | Profit/Loss Account" is supplemented and continued by "Management Accounting. Workbook 2 – Profit Plan | Finance Plan | Budgeted Balance Sheet".

This book aims to provide practical exercises to give students the practice they need to make them proficient in the cost and management accounting arena. A wide variety of questions covering the different syllabi of elementary courses at tertiary institutions has been incorporated.

The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.
