Subaru Engine Serial Number Location

The model code or vehicle descriptor section (VDS) of a Subaru is located within the 17 digit serial number (VIN) of your vehicle. The 5 numbers representing the options and precise model of the motor or the transmission are found in position number 4 to 8 of the VIN. Certain builders may even indicate the equipment group present in the vehicle. During the purchasing process for a new car, you can use the serial number to compare different models that you are interested in.

List of Subaru engines - Wikipedia

The number on the block is accentually a serial number for the engine cases, located across the top of the block on the bell housing portion and by the starter (for subaru). Depending on the manufacture this # can be an abbreviated version of the vin or just handed out in order they were manufactured as in a serial #.

---

VIN #'s on engine blocks - NASIOC

I've looked everywhere on line, called the local Subaru dealer, checked the forum here, but no answer to this question. The six digit number on the engine, close to the transmission on the drivers side is the number. The numbers must mean something as Head Gasket manufacturers have specific gaskets for certain number ranges, yet no one seems to know what else these numbers mean, or if a manufacturing date can be found from them.
