Building definition: A building is a structure that has a roof and walls, for example a house or a factory. | Meaning, pronunciation, translations and examples

Building definition and meaning | Collins English Dictionary  
Building, a usually roofed and walled structure built for permanent use. Rudimentary buildings were initially constructed out of the purely functional need for a controlled environment to moderate the effects of climate. These first buildings were simple dwellings. Later, buildings were constructed for other functions, such as food storage and to serve as sites of ceremony.
