A Customer Experience is about a number of things. It about a physical Customer Experience, such as price, product, location, opening times, and the channel that is used, that is, stores, online, telephone, the features of the product, and so on. Critically it is also about emotions ! how a customer feels.

**The DNA of Customer Experiences - C. Shaw - 9780230500066**

A Definition of Customer DNA. Derived from customer data, Customer DNA is the complete view enterprises gain into their customers. Just as DNA in the biological sense is an individual's unique genetic code, Customer DNA in the marketing sense is the customer's unique behavior and tastes. Customer DNA gives a 360-degree view of the customer, enabling organizations to create personalized, relevant customer experiences for each of their individual customers.
