intimate, nuanced portraits, taking us from the hillside city of Darjeeling, India to a tucked away Nepalese restaurant in New York City. The daily struggles of Parajuly's characters reveal histories of war, colonial occupation, religious division, systemized oppression, and dispossession in the diverse geographical intersection of India, Nepal, Bhutan, Tibet, and China. In a cruel remark by a wealthy doctor to her tenant shopkeeper, we hear the persistent injustice of the caste system; in the contentious relationship between a wealthy widow and her sister-in-law, we glimpse the restricted lives and submissive social roles of Nepalese women; and in a daughter's relationship with her father, we find a dissonance between modernity and tradition that has echoed through the generations in unexpected ways. Across different ethnicities, religions, and other social distinctions, the characters in these share a universal yearning, not just for survival but for a better life; one with love, dignity, and community. In *The Gurkha's Daughter*, Parajuly reveals the small acts of bravery--the sustaining, driving hope--that bind together the human experience.

One the Oxford-educated achiever; the other the disgraced eloper--one moneyed but miserable; the other ostracized but optimistic. Essay from the year 2019 in the subject Literature - Basics, grade: M.A, , language: English, abstract: This paper analyses Prajwal Parajuly's short stories "The Gurkha's Daughter". In "The Gurkha ' s Daughter" (2012), Parajuly concerns characters survival through cultural practices between Nepali and English convention as hybridity in a host country. The characters of these stories immigrate to the host country with some purpose where they develop hybrid cultural space. They seem to have difficulty in coping with the host culture and the country because of which they start to negotiate and adapt new language, behavior, religion, lifestyle, relationship etc. In order to show the presence of hybrid cultural space, different hybrid elements from the stories were identified and reasoned for hybridity. Hybrid is a word termed by Homi K. Bhabha which gives rise to new and unidentifiable cultural identity that has negotiation of meaning and representation. Hybridity is a product of adaptation and negotiation that is developed by immigrants in a host country for acceptance by the host community or for survival.

A history of larger-than-life characters and the demise of the tiny Himalayan kingdom nestled between India and China. This is the true story of Sikkim, a tiny Buddhist kingdom in the Himalayas that survived the end of the British Empire only to be annexed by India in 1975. It tells the remarkable tale of Thondup Namgyal, the last King of Sikkim, and his American wife, Hope Cooke, thrust unwittingly into the spotlight as they sought support for Sikkim's independence after their "fairytale" wedding in 1963. As tensions between India and China spilled over into war in the Himalayas, Sikkim became a pawn in the Cold War in Asia during the 1960s and 1970s. Rumors circulated that Hope was a CIA spy. Meanwhile, a shadowy Scottish adventuress, the Kazini of Chakung, married to Sikkim's leading political figure, coordinated opposition to the Palace. As the world's major powers jostled for regional supremacy during the early 1970s, Sikkim and its ruling family never stood a chance. On the eve of declaring an emergency across India, Indira Gandhi outwitted everyone to bring down the curtain on the 300-year-old Namgyal dynasty. Based on interviews and archive research, as well as a retracing of a journey the author's grandfather made in 1922, this is a thrilling, romantic, and informative glimpse of a real-life Shangri-La. Praise for Sikkim "A remarkable piece of detective work.... Fascinating human stories...a very valuable addition to how the Cold War played out in South Asia, and to the history of the foreign policies of China, India, and the U.S." —Michael Burleigh, author of *The Best of Times, the Worst of Times*
