transformational change. To truly change the world or even just your little corner of it, you don't need a charismatic leader or a catchy slogan. What you need is a cascade: small groups that are loosely connected but united by a common purpose. As individual

entities, these groups may seem inconsequential, but when they synchronize their collective behavior as networks, they become immensely powerful.

Through the power of cascades, a company can be made anew, an industry disrupted, or even an

entire society reshaped. As Satell takes us through past and present movements, he explains exactly why and how some succeed while others fail.
