With the intrigue of a psychological thriller, Camus's masterpiece gives us the story of an ordinary man unwittingly drawn into a senseless murder on an Algerian beach. Behind the intrigue, Camus explores what he termed "the nakedness of man faced with the absurd" and describes the condition of reckless alienation and spiritual

exhaustion that characterized so much of twentieth-century life. First published in 1946; now in translation by Matthew Ward.

What terms did early Christians use for outsiders? How did they refer to non-members? In this book-length investigation of these questions, Paul Trebilco explores the outsider designations that the early Christians used in the New Testament. He examines a range of terms, including unbelievers, 'outsiders', sinners, Gentiles, Jews, among others. Drawing on insights from social identity theory, sociolinguistics, and the sociology of deviance, he investigates the usage and development of these terms across the New Testament, and also examines how these outsider designations function in boundary construction across several texts. Trebilco's analysis leads to new conclusions about the identity and character of the early Christian movement, the range of relations between early Christians and outsiders, and the theology of particular New Testament authors.

illuminating a dark and brutal period in South Africa's history that must never be forgotten."—Esquire Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by The New York Time, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah's unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents' indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa's tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man's relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love.

In this groundbreaking book, Garth Myers uses African urban concepts and experiences to speak back to theoretical and practical concerns. He argues for a re-visioning - a seeing again, and a revising - of how cities in Africa are discussed and written about in both urban studies and African studies. Cities in Africa are still either ignored - banished to a different, other, lesser category of not-quite cities - or held up as examples of all that can go wrong with urbanism in much of the mainstream and even critical urban literature. Myers instead encourages African studies and urban studies scholars across the world to engage with the vibrancy and complexity of African cities with fresh eyes. Touching on a diverse range of cities across Africa - from Zanzibar to Nairobi, Cape Town to Mogadishu, Kinshasa to Dakar - the book uses the author's own research and a close reading of works by other scholars, writers and artists to help illuminate what is happening in and across the region's cities.

In the 1994 Rwanda genocide, around 1 million people were brutally murdered in just thirteen weeks. This book offers an in-depth study of posttraumatic growth in the testimonies of the men and women who survived, highlighting the ways in which they were able to build a new, and often enhanced, way of life. In so doing, Caroline Williamson

Sinalo advocates a new reading of trauma: one that recognises not just the negative, but also the positive responses to traumatic experiences. Through an analysis of testimonies recorded in Kinyarwanda by the Genocide Archive of Rwanda, the book focuses particularly on the relationship between posttraumatic growth and gender and examines it within the wider frames of colonialism and traditional cultural practices. Offering a striking alternative to dominant paradigms on trauma, the book reveals that, notwithstanding the countless tales of horror, pain, and loss in Rwanda, there are also stories of strength, recovery, and growth.

The first Europeans to arrive in North America's various regions relied on Native women to help them navigate unfamiliar customs and places. This study of three well-known and legendary female cultural intermediaries, Malinche, Pocahontas, and Sacagawea, examines their initial contact with Euro-Americans, their negotiation of multinational frontiers, and their symbolic representation over time. Well before their first contact with Europeans or Anglo-Americans, the three women's societies of origin—the Aztecs of Central Mexico (Malinche), the Powhatans of the mid-Atlantic coast (Pocahontas), and the Shoshones of the northern Rocky Mountains (Sacagawea)—were already dealing with complex ethnic tensions and social change. diplomacy learned in their Native cultures and often assigned to women, all three individuals hoped to benefit their own communities by engaging with the new arrivals. But as historian Rebecca Kay Jager points out, Europeans and white Americans misunderstood female expertise in diplomacy and interpreted indigenous women's cooperation as proof of their attraction to Euro-American men and culture. This confusion has created a historical misrepresentation of Malinche, Pocahontas, and Sacagawea as gracious Indian princesses, giving far too little credit to their skills as intermediaries. Examining their initial contact with Europeans and their work on multinational frontiers, Jager removes these three famous icons from the realm of mythology and cultural fantasy and situates each woman's behavior in her own cultural context. Drawing on history, anthropology, ethnohistory, and oral tradition, Jager demonstrates their shrewd use of diplomacy and fulfillment of social roles and responsibilities in pursuit of their communities' future advantage. Jager then goes on to delineate the symbolic roles that Malinche, Pocahontas, and Sacagawea came to play in national creation stories. Mexico and the United States have molded their legends to justify European colonization and condemn it, to explain Indian defeat and celebrate indigenous prehistory. After hundreds of years, Malinche, Pocahontas and Sacagawea are still relevant. They are the symbolic mothers of the
