### Under Water, Under Earth by Aleksandra Mizielinska

Underwater Earth commenced work back in 2010 with a simple, single-minded vision - to reveal the ocean to the world. The ocean, representing over two-thirds of the world's surface area, critical to the planet's health and wealth, is out of sight and therefore out of mind. How can anyone love and care for something they cannot see and cannot

Was Earth Ever Completely Underwater? In answer to the initial question posed in this article, yes, there was almost certainly a period of time when the vast majority of Earth was covered in water. Early estimates of this waterworld period of Earth's history was about 2.5 billion years ago, but recent research has pushed back that estimate by another 500 million years.
