Upheavals of Thought is a big book in every sense of the word. It is a 700-page, deep-thinking, and far-ranging argument that emotions should be central to ethical thinking. From infancy on, we must find our way in the world, but, writes Martha C. Nussbaum, \"without the intelligence of emotions, we have little hope.\"

More literary and experiential than other philosophical works on emotion, Upheavals of Thought will engage the reader who has ever stopped to ask that question. Emotions such as grief, fear, anger and love seem to be alien forces that disturb our thoughts and plans.

A philosophical examination of the emotions as highly discriminating responses to what is of value.

Emotions shape the landscape of our mental and social lives. Like geological upheavals in a landscape, they mark our lives as uneven, uncertain and prone to reversal. Are they simply, as some have claimed, animal energies or impulses with no connection to our thoughts? Or are they rather suffused with intelligence and discernment, and thus a source of deep awareness and understanding? In this compelling book, Martha C. Nussbaum presents a powerful argument for treating emotions not as alien forces but as highly discriminating

responses to what is of value and importance. She explores and illuminates the structure of a wide range of emotions, in particular compassion and love, showing that there can be no adequate ethical theory without an adequate theory of the emotions. This involves understanding their cultural sources, their history in infancy and childhood, and their sometimes unpredictable and disorderly operations in our daily lives.

This volume brings together Nussbaum's published papers on the relationship between literature and philosophy, especially moral philosophy. The papers, many of them previously inaccessible to non-specialist readers, deal with such fundamental issues as the relationship between style and content in the exploration of ethical

issues; the nature of ethical attention and ethical knowledge and their relationship to written forms and styles; and the role of the emotions in deliberation and self-knowledge. Nussbaum investigates and defends a conception of ethical understanding which involves emotional as well as intellectual activity, and which gives a certain type of priority to the perception of particular people and situations rather than to abstract rules. She argues that this ethical conception cannot be completely and appropriately stated without turning to forms of writing usually considered literary rather than philosophical. It is consequently necessary to broaden our conception of moral philosophy in order to include these forms. Featuring two new essays and revised versions of several previously published essays, this collection attempts to articulate the relationship, within such a broader ethical inquiry, between literary and more abstractly theoretical elements.

From one of the world's most celebrated moral philosophers comes a

thorough examination of the current political crisis and recommendations for how to mend our divided country. For decades Martha C. Nussbaum has been an acclaimed scholar and humanist, earning dozens of honors for her books and essays. In *The Monarchy of Fear* she turns her attention to the current political crisis that has polarized America since the 2016 election. Although today's atmosphere is marked by partisanship, divisive rhetoric, and the inability of two halves of the country to communicate with one another, Nussbaum focuses on what so many pollsters and pundits have overlooked. She sees a simple truth at the heart of the problem: the political is always emotional. Globalization has produced feelings of powerlessness in millions of people in the West. That sense of powerlessness bubbles into resentment and blame. Blame of immigrants. Blame of Muslims. Blame of other races. Blame of cultural elites. While this politics of blame is exemplified by the election of Donald Trump and the vote for Brexit, Nussbaum argues it can be found on all sides of the political spectrum, left or right. Drawing on a mix of historical and contemporary examples, from classical Athens to the musical *Hamilton*, *The Monarchy of Fear* untangles this web of feelings and provides a roadmap of where to go next.

Martha Nussbaum asks: How can we sustain a decent society that aspires

to justice and inspires sacrifice for the common good? Amid negative emotions endemic even to good societies, public emotions rooted in love--intense attachments outside our control--can foster commitment to shared goals and keep at bay the forces of disgust and envy.

We all age differently, but we can learn from shared experiences and insights. The conversations, or paired essays, in *Aging Thoughtfully* combine a philosopher's approach with a lawyer-economist's. Here are ideas about when to retire, how to refashion social security to help the elderly poor, how to learn from King Lear -- who did not retire successfully -- and whether to enjoy or criticize anti-aging cosmetic procedures. Some of the concerns are practical: philanthropic decisions, relations with one's children and grandchildren, the purchase of annuities, and how to provide for care in old age. Other topics are cultural, ranging from the treatment of aging women in a Strauss opera and various popular films, to a consideration of Donald Trump's (and other men's) marriages to much younger women. These engaging, thoughtful, and often humorous exchanges show how stimulating discussions about our inevitable aging can be, and offer valuable insight into how we all might age more thoughtfully, and with zest and friendship.

Anger is not just ubiquitous, it is also popular. Many people think it is impossible to care sufficiently for justice without anger at injustice. Many believe that it is impossible for individuals to vindicate their own self-respect or to move beyond an injury without anger. To not feel anger in those cases would be considered suspect. Is this how we should think about anger, or is anger above all a disease, deforming both the personal and the political? In this wide-ranging book, Martha C. Nussbaum, one of our leading public intellectuals, argues that anger is conceptually confused and normatively pernicious. It assumes that the suffering of the wrongdoer restores the thing that was damaged, and it betrays an all-too-lively interest in relative status and humiliation. Studying anger in intimate relationships, casual daily interactions, the workplace, the criminal justice system, and movements for social transformation, Nussbaum shows that anger's core ideas are both infantile and harmful. Is forgiveness the best way of transcending anger? Nussbaum examines different conceptions of this much-sentimentalized notion, both in the Jewish and Christian traditions and in secular morality. Some forms of forgiveness are ethically promising, she claims, but others are subtle allies of retribution: those that exact a performance of contrition and abasement as a condition of waiving angry feelings. In general, she argues, a spirit of generosity (combined, in some cases, with a

reliance on impartial welfare-oriented legal institutions) is the best way to respond to injury. Applied to the personal and the political realms, Nussbaum's profoundly insightful and erudite view of anger and forgiveness puts both in a startling new light.
