"A beautiful piece of writing that touches many issues such as violence; the pitfalls of retributive justice and the scourge of social inequality (all set against a backdrop of India) in a non-pedagogic, story like manner. Unputdownable."

novel "There's Love In Every Heart" reminds me of noted author Francis Bacon who once penned "Some books are to be tasted, others to be swallowed, and some few to be chewed and digested; that is, some books are to be read only in parts; others to be read, but not curiously; and some few are to be read wholly, and with diligence and attention." Multiplex theaters offered teens a wide array of perspectives on the coming-of-age experience, as well as an escape into the alternative worlds of science fiction and horror. Youth films remained a popular and profitable genre through the 1990s, offering teens a place to reflect on their evolving identities from adolescence to adulthood while simultaneously shaping and maintaining those identities. Drawing examples from hundreds of popular and lesser-known youth-themed films, Timothy Shary here offers a comprehensive examination of the

representation of teenagers in American cinema in the 1980s and 1990s. He focuses on five subgenres—school, delinquency, horror, science, and romance/sexuality—to explore how they represent teens and their concerns, how these representations change over time, and how youth movies both mirror and shape societal expectations and fears about teen identities and roles. He concludes that while some teen films continue to exploit various notions of youth sexuality and violence, most teen films of the past generation have shown an increasing diversity of adolescent

This book examines the multiple ways that popular media mainstream and reinforce neoliberal ideology, exposing how they promote neoliberalism's underlying ideas, values and beliefs so as to naturalize inequality, undercut democracy and contribute to the collapse of social notions of community and the common good. Covering a wide range of media and genres, and adopting a variety of qualitative textual methodologies and

theoretical frameworks, the chapters examine diverse topics, from news coverage of the 2016 U.S. presidential election to the NBC show Superstore (an atypical instance in which a TV show, for one brief season, challenged the central tenets of neoliberalism) to "kitchen porn." The book also takes an intersectional approach, as contributors explore how gender, race, class and other aspects of social identity are inextricably tied to each other within media representation. At once innovative and distinctive in its illustration of how the
