VDI desktops in Horizon View 6?

There is a standing theory at my job that if you vMotion all VDI guests (and any replicas) off a host to put a host into maintenance mode for patching that you have to put all the VDI guests back to that host to keep Horizon View "happy" especially when it comes time to recompose.

~~Horizon View 6 VDI Desktops and vMotion | VMware Communities~~

- Log as test user with Horizon View client (1st time) - View Desktop loads Windows, and shows desktop (30-45 seconds) (During this step, I see the profile and redirected folders are created correctly) - Log off test user - Log back in with the same test user (2nd time) - View Desktop loads Windows, shows the "Welcome" screen, and then a black ...

You can connect to your desktop and applications by using the VMware Horizon Client or through the browser. For help with staffdesktop.gre.ac.uk, click here.

~~VMware Horizon~~

VMware Horizon offers the option to broker access to physical machines. This provides an excellent and familiar experience for employees to allow them to work from home by connecting to their normal office-based machine. Brokering to physical machines can be implemented either with an existing Horizon environment or with a new one. With minimal components required, this solution can be ...
