These Real-Estate Loans Require a New York State of Mind - WSJ

The " engrossing " (Wall Street Journal) story of the biggest con in wine history In 2002, Rudy Kurniawan, an unknown twentysomething, burst into the privileged world of ultrafine wines. Blessed with a virtuoso palate, and with a seemingly limitless supply of coveted bottles, Kurniawan quickly became the leading purveyor of rare wines to the American elite. But in April 2008, at a New York auction house, dozens of Kurniawan's trophy bottles were abruptly pulled from sale. Journalist Peter Hellman was there, and he began to investigate: Were the bottles fake? Were there others? And was Kurniawan himself a dupe . . . or had he ensnared the world's top winemakers, sellers, and drinks in a web of deceit?

"Kudos to Tyler Colman for this illuminating look at wine's fascinating backstory. This excellent overview of how important politics is to the taste of the wine in your glass is a new kind of wine book, essential for every wine lover's bookshelf."—Elin McCoy, author of The Emperor of Wine: The Rise of Robert M. Parker, Jr. and the Reign of American Taste "In shrewdly examining how politics influences the production, distribution, and consumption of wine on both sides of the Atlantic, Tyler Colman has written a much-needed and long-overdue book. Wine Politics won't necessarily make you a better taster, but it will unquestionably make you a more enlightened drinker."—Mike Steinberger, wine columnist for Slate magazine

Delectably brief essays that tell you only what you need to know to enjoy wine. There are wine encyclopedias, bibles, and guides—this is not one of those books. It doesn ' t contain everything, just the really important stuff: the truly key wines, grapes, regions; tips about wine buying, aging, and storage; and useful explanations about tasting notes and whether or not vintages really matter. In short, this book covers the real absolutes that you need to know about wine.With the pithy wit that readers of her columns have come to expect, Lettie Teague breaks down the stumbling blocks that often intimidate us and clears up the myths that cloud our understanding. A series of mini-essays cover the essentials in a fun, omnibus fashion. The tone is sometimes irreverent, sometimes opinionated, but always practical. For instance, there are entries such as "The Unbearable Oakiness of Being," "Can Wedding Wine Be Good," and "Why You Really Need Only One Glass." Other entries may provoke some lively debate, such as "Men Are from Cab, Women Are from Moscato" and "In Defense of Wine Snobs." The opposite of a didactic textbook, this volume is not meant to be read from start to finish. Instead, like wine itself, it encourages small contemplative sips. It is a companion for the modern taster, a concise and curated collection of tidbits to satisfy anyone with a lively curiosity and palate.

Why did so many intelligent people-from venture capitalists to Wall Street elite-fall for the hype? And how did WeWork go so wrong? In little more than a decade, Neumann transformed himself from a struggling baby clothes salesman into the charismatic, hard-partying CEO of a company worth \$47 billion-on paper. With his long hair and feel-good mantras, the six-foot-five Israeli transplant looked the part of a messianic truth teller. Investors swooned, and billions poured in. Neumann dined with the CEOs of JPMorgan and Goldman Sachs, entertaining a parade of power brokers desperate to get a slice of what he was selling: the country's most valuable startup, a once-in-a-lifetime opportunity and a generation-defining moment. Soon, however, WeWork was burning through cash faster than Neumann could bring it in. From his private jet, sometimes clouded with marijuana smoke, he scoured the globe for more capital. Then, as WeWork readied a Hail Mary IPO, it all fell apart. .

Master of Wine and Chef Tim Hanni MW was hailed as the Wine Antisnob by the Wall Street Journal for his work in understanding consumer wine preferences and revolutionary concepts for wine and food pairing. This introductory volume for The New Wine Fundamentals wine education program is based on two decades of research by the author and many research colleagues. "Why You Like the Wines You Like: changing the way the world thinks about wine" introduces the physiological and psychological factors that shape personal wine preferences. It offers empowerment to wine drinkers at all levels and is a truly game-changing approach to the subject of the enjoyment of wine and wine with food. Why You Like the Wine You Like also looks at the countless myths and lore associated with wine and provides insights and an information for anyone interested in wine history. Hanni's wine and food principles were adopted last year and taught as part of the Advanced Diploma curriculum for the Wine & Spirits Educational Trust. "Wine and food pairing is has become an imaginary and metaphorical exercise with little basis in reality," Hanni says. "I am on a mission to have everyone pair wines with the diner, not the dinner." "I have spent many hours with Tim wrestling with some of his ideas while they were still in the formative stage. It was both an exhilarating and an exhaustive experience. With a broad and deep knowledge of wine and food history as well as their complexities, he is not afraid to challenge the way things are done and

suggest alternatives. He's not dogmatic in his beliefs, but he demands that conventional thinkers think again. You may not agree with all his conclusions, but I promise he will make you think." George Taber, author of the bestseller The Judgment of Paris and A Guide to Bargain Wines and former correspondent and editor for Time magazine
